- f=2.8-10mm vari-focal DC auto-iris lens
- 0.0 Lux, IR ON, ~15mm
- IP66 weather proof & vandal resistant

MX863-HD IR Fixed Camera

- f=3.6mm fixed iris lens
- 0.0 Lux, IR ON, ~10mm
- IP66 weather proof

World's First Multi-stream Coder for HD Video

MX Series HD CCTV camera incorporates with HD SMAC-M video coder, which is the world's first multi-stream coder for HD video. It allows simultaneous HD video recording and fast video transmission via LAN, ADSL or mobile networks.

Wider View and Great Details

MX Series HD CCTV camera records HD video with a wide screen aspect ratio 16:9. The wide screen format provides 33% more viewing area than analog cameras. The wider view can greatly reduce blind spots in the surveillance system.

With a resolution over 800TVL, it provides ultra-high resolution video quality and more detail for identification. By employing progressive scanning, TeleEye MX Series HD CCTV is also able to create images with least distortion and jaggedness.

16:9 Wide Screen

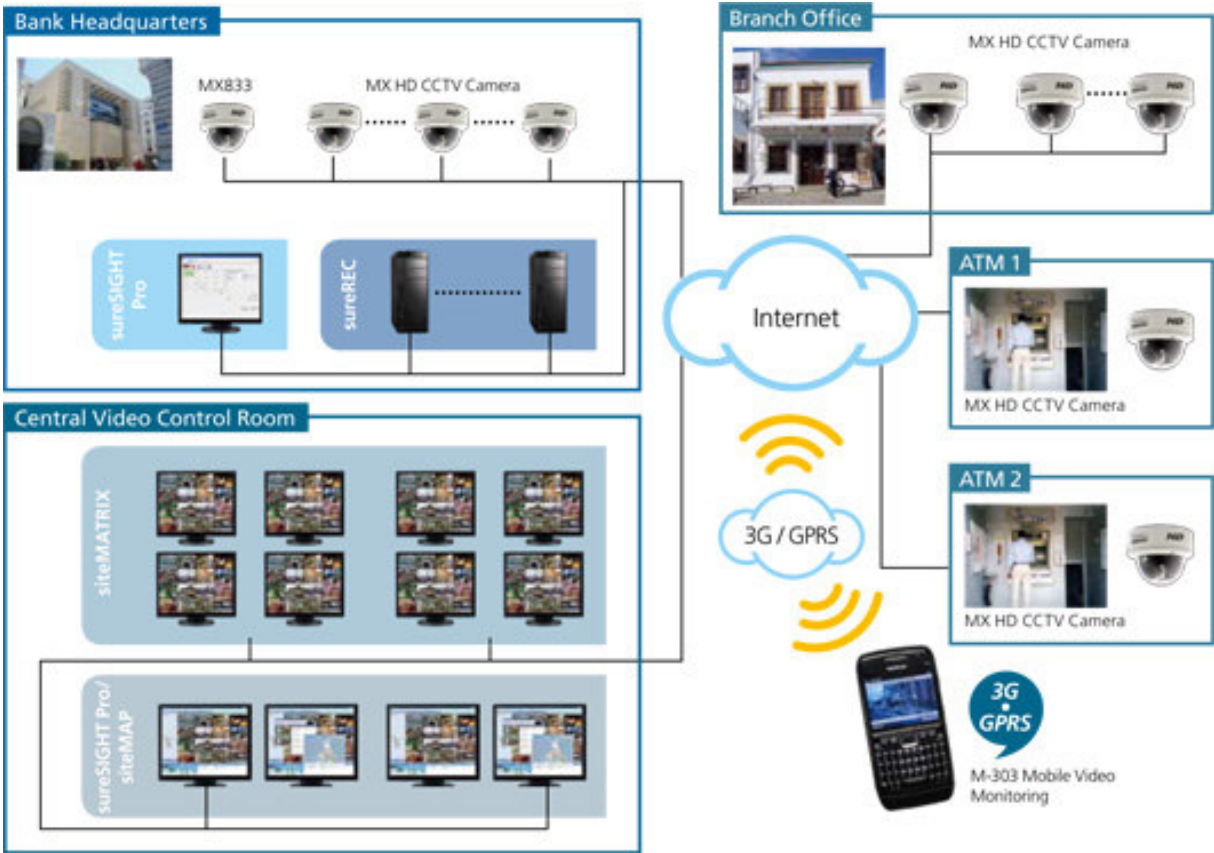

4:3 Standard Resolution

Mobile and Portable Video Surveillance

MX Series HD CCTV camera can use with TeleEye M303 Video Monitoring System to deliver live video through mobile data network or WiFi. Users may view live video and receive event alerts on their mobile phones while they are on the move.

Total Solution for HD Video Surveillance

Features:

- 1/3.2" CMOS sensor, 2 megapixel
- HD SMAC-M multi-stream coder for HD video
- Resolution: 1600 x 900p; 1280 x 720p
- Progressive Scan, 16:9 aspect ratio
- Independent mobile stream for mobile phone viewing
- Optional sureREC HD Video Recording Solution
- Optional sureSIGHT Integrated Video Management Solution
